WHAT OUR CUSTOMERS HAD TO SAY

"Brilliant feeling when they tell you how many inches you have lost! Would definitely recommend to everyone I know!"

Natalie Broad

"I wasn't sure when I first arrived at the salon for the treatment I thought surly I can't lose weight by just a wrap and I was totally shocked with the outcome. Debbie was lovely - very reassuring and by the end of the first treatment I had found myself booking the 2nd and 3rd wrap. I would highly recommend this to others."

Anita Hannan

"Booked my third for next week and really looking forward to it. I have lost 13.8 inches so far."

Melanie Penwright

"Really pleased with over 8 inches lost with my first wrap, and my skin seems firmer. Very happy!"

THE CLASSIC BODY WRAP

HOW IT WORKS

The Process

The client completes a simple health questionnaire. They are then weighed and measured before being wrapped in 25 - 30 elasticated bandages that have been pre-soaked in our warm Classic Clay Solution. The client then wears a vinyl suit to retain heat and relaxes for 60 minutes. The client is then unwrapped, dried and measured (no shower required). The therapist then compares results and provides a unique treatment guarantee certificate, complete with aftercare instructions.

How it Works

The combination of unique natural Classic Clay Solution and specialist body wrapping techniques are what make our Classic Body Wrap so successful. The clay solution draws out toxins whilst the wrapping technique actively compresses the soft fatty tissues. This creates an instant inch loss, firming and body sculpting effect.

This is not a temporary water loss treatment!

We actually recommend the client drinks water regularly after the treatment to continue the detox process.

Treatment Time: 120 minutes (60 minutes once wrapped)

Recommended Treatment Price: £75 - £90

Treatment Cost: £8.33 (Based on ordering 24 bags)
